**Webcast Information:**

- High-speed Internet connections (a connection of at least 300k) allow the ideal viewing environment for the webcast. Dial-up and non-digital connections may experience delays in viewing. To test your connection speed, you may run a [speed test](http://www.dslreports.com/speedtest?flash=1) at <http://www.dslreports.com/speedtest?flash=1>. Select the city closest to yours to test the speed. Users with a speed less than 300k may experience slight delays and pause. You may select the "Audio Only" feature if this is bothersome.
- Both audio and visual will be presented through your PC.
- If you need assistance, please click on the button below the webcast entitled "[Help](#)."
